

Accessing 2020 Census Redistricting Data on data.census.gov – Searching for Data on Places

This informational flier will show you how to search for 2020 P.L. 94-171 Redistricting Data using the ‘Place’ geography filter on data.census.gov. The ‘Place’ geography filter is made up of incorporated places, which are legal entities, and census designated places (CDPs), which are statistical entities. Places nest within state boundaries. A lot of users may want to view the new Redistricting Data for this geography, so let’s jump into our example search!

For our example, let’s include ‘Places’ in our search to find data on the Hispanic or Latino population. To do this, navigate to our site at data.census.gov and click on the Advanced Search button located directly under the Single Search bar.

Once you click on that link, you will see a list of filters on the left side of the screen. To access the Redistricting Data, click on the ‘Surveys’ filter and select the ‘Decennial Census’ option. Then scroll down the list and check the box for Redistricting Data (PL 94-171).

Since we want the newest tables from 2020, go to the 'Years' filter and select '2020' from the list.

The screenshot shows the United States Census Bureau search interface. At the top, there is a search bar and a link to 'Advanced Search'. Below the search bar, there is a 'BROWSE FILTERS' section on the left with options: Topics, Geography, Years, Surveys, and Codes. The 'Years' filter is selected and highlighted with a red box. To the right of the 'BROWSE FILTERS' section, there is a 'YEARS' list with checkboxes for each year from 2010 to 2021. The '2020' checkbox is checked and highlighted with a red box. At the bottom of the page, there is a 'Selected Filters' section showing 'Redistricting Data (PL 94-171)' and '2020 Year'. There are also buttons for 'CLEAR FILTERS', 'SEARCH', and 'SHOW'.

Next, select the geography you want to view. For this example, let's use the city of Denver, Colorado. Click on the 'Geography' filter, and then scroll until you see the 'Place' geography and select it. After we select 'Place', we will choose the state that our place is in. Since Denver is in Colorado, click on 'Colorado' and the page will advance to show all places in Colorado. This is an extensive list and can take some time to scroll through, so we recommend using the search bar that is available at the top of the panel to search for a specific place.

The screenshot shows the United States Census Bureau search interface with the 'Geography' filter selected. The 'BROWSE FILTERS' section on the left has 'Geography' highlighted with a red box. To the right of the 'BROWSE FILTERS' section, there is a 'GEOGRAPHY' section with a 'Show Summary Levels' toggle. Below this, there is a list of geography types: Chamber, Public Use Microdata Area, Place, Voting District, Traffic Analysis Zone, County Subdivision, Sub-Minor Civil Division, Alaska Native Regional Corporation, American Indian Area/Alaska Native Area/Hawaiian Home Land, Metropolitan Statistical Area/Micropolitan Statistical Area, and Combined Statistical Area. The 'Place' geography type is selected and highlighted with a red box. To the right of the 'GEOGRAPHY' section, there is a 'WITHIN (STATE)' section with a search bar and a list of states. The 'Colorado' state is selected and highlighted with a red box. To the right of the 'WITHIN (STATE)' section, there is a 'COLORADO' section with a search bar and a list of places in Colorado. The search bar in the 'COLORADO' section is highlighted with a red box. At the bottom of the page, there is a 'Selected Filters' section showing 'Redistricting Data (PL 94-171)' and '2020 Year'. There are also buttons for 'CLEAR FILTERS', 'SEARCH', and 'SHOW'.

If you click on the magnifying glass icon in the top right corner of the panel labeled 'Colorado', a search bar will appear. If you start typing 'Denver' into this search bar, the panel will automatically update to show places in Colorado that match the search term. Then, click on the checkbox directly to the left of 'Denver city, Colorado', which should appear at the top of the list.

It's also worth mentioning that you can add multiple geographies to your search. If we are looking for data on Denver and another place, such as Lincoln, Nebraska, we would return to the 'Within (State)' panel of this filter, select 'Nebraska', and then search for 'Lincoln' in the search bar, just like we did for Denver. Then, we would select 'Lincoln city, Nebraska' and that too would be added to the search. Once those filters are applied, click on the 'Search' button, located at the bottom right corner of the screen.

CLEAR FILTERS SEARCH SHOW

The results page shows all six tables available from the 2020 P.L. 94-171 Redistricting Data. Since we're looking for data specifically on the Hispanic or Latino populations of Denver and Lincoln, let's click on table P2, 'Hispanic or Latino, and Not Hispanic or Latino by Race.'

The screenshot shows the United States Census Bureau website. The 'Tables' tab is selected. A list of tables is displayed, including 'OCCUPANCY STATUS', 'RACE', 'HISPANIC OR LATINO, AND NOT HISPANIC OR LATINO BY RACE' (Table: P2), 'RACE FOR THE POPULATION 18 YEARS AND OVER', and 'HISPANIC OR LATINO, AND NOT HISPANIC OR LATINO BY RACE FOR THE POPULATION 18 YEARS AND OVER'. Table P2 is highlighted with a red box. A 'Public Use Microdata' button is visible on the right.

This table shows the total populations of Denver and Lincoln on the first line, the total Hispanic or Latino population on the second line, and the total population of those who did not identify as Hispanic or Latino on the third line.

The screenshot shows the United States Census Bureau website with the 'Tables' tab selected. The table 'HISPANIC OR LATINO, AND NOT HISPANIC OR LATINO BY RACE' (TableID: P2) is selected. The product is '2020: DEC Redistricting Data (PL 94-171)' and the universe is 'Total population'. The table is filtered for 'Total' and 'Not Hispanic or Latino'. The data is displayed in a table with columns for Label, Denver city, Colorado, and Lincoln city, Nebraska. The table is filtered for 'Total' and 'Not Hispanic or Latino'.

Label	Denver city, Colorado	Lincoln city, Nebraska
✓ Total:	715,522	291,082
Hispanic or Latino	199,460	24,934
✓ Not Hispanic or Latino:	516,062	266,148
✓ Population of one race:	485,941	252,826
White alone	388,764	222,749
Black or African American alone	61,098	13,224
American Indian and Alaska Native alone	3,740	1,644
Asian alone	27,198	13,765
Native Hawaiian and Other Pacific Islander alone	1,395	162
Some Other Race alone	3,746	1,282
✓ Population of two or more races:	30,121	13,322
✓ Population of two races:	27,911	12,543
White, Black or African American	6,057	4,256
White, American Indian and Alaska Native	5,435	2,974
White, Asian	8,043	2,592
White, Native Hawaiian and Other Pacific Islander	371	153
White, Some Other Race	5,348	1,882

Now let's navigate to the table list on the left and click on Table P4, 'Hispanic or Latino, and Not Hispanic or Latino by Race for the Population 18 Years and Over.' This table provides the same data as table P2, but only for the voting age populations of Denver and Lincoln.
